

Courage in the Face of Terror: Rebuilding Hope at Kibbutz Be'eri

At just 22, MDA paramedic Amit Mann was murdered in the dental clinic while treating the wounded at Kibbutz Beerli on October 7, 2023. Her heroism will always be remembered.

From Ruin to Renewal

The dental clinic—damaged beyond repair—was respectfully demolished in a moving community ceremony and in its place, hope is taking root again.

Alpha Omega is committed to rebuilding a new dental clinic as part of a state-of-the-art multi-clinic complex.

This new facility will provide dental, medical, and pediatric care, ensuring that Be’eri’s residents and future generations have access to compassionate care close to home.

Your donation will:

- Honor the fallen by continuing their legacy of service.
- Restore dental care for survivors and future generations.
- Support healing in one of Israel’s hardest-hit communities.

When Bravery Met Tragedy

On October 7th, the dental clinic at Kibbutz Be’eri became the site of extraordinary bravery.

In the face of unthinkable terror, a doctor, a paramedic, and three members of the emergency response team took refuge inside the clinic and mounted a heroic defense that stopped the attackers from advancing further into the community.

All five gave their lives.

The clinic—once a place of care and healing—became a shield for the community and a symbol of courage that will never be forgotten.

Rebuild. Remember. Renew.

Every gift carries forward the spirit of courage, compassion, and community that defined those who gave everything on October 7th.

Together, we can help Be'eri rebuild and ensure that care, compassion, and courage continue to define its future.
